PROFESSIONAL SUMMARY

Recent Bachelor of Science in Information Technology graduate with hands-on experience in full-stack web development using Laravel, PHP, MySQL, Node.js, JavaScript, PostgreSQL, and RESTful APIs. Experienced in building industry-driven applications and AI-powered solutions, with a strong foundation in modern software development practices and collaborative workflows.

TECHNICAL SKILLS & AWARDS

- **Languages & Frameworks:** PHP, Laravel, JavaScript, Node.js, React.js, Vue.js, Python, Django, Java, C#, Flutter
- **Databases & Tools:** MySQL, PostgreSQL, RESTful APIs, Postman, Git, GitHub, Agile Workflows
- **Awards:** Magna Cum Laude, Best in Capstone Award, Outstanding Intern, Proficiency Excellence Award

WORK EXPERIENCE

Commission on Elections (COMELEC) | February 2025 – May 2025

Technical Support Staff – Department of Education Supervisor Official

- Provided on-site technical support and hardware troubleshooting for Automated Counting Machines (ACMs) during the National and Local Elections, securing uninterrupted voting operations.
- Diagnosed and resolved critical technical issues efficiently on election day, achieving 100% operational continuity across assigned polling locations.
- Coordinated directly with election personnel and regional engineering teams to address equipment concerns promptly, minimizing system downtime and maintaining network reliability.

OJT EXPERIENCE

Outsoar Software Development Service (OUTSOAR PH) | February 2026 – May 2026

Full-Stack Developer Intern

- Developed Cooper, a web-based Human Resource Information System (HRIS) and time-tracking application, implementing features for time-in/out, leave management, automated payroll notifications, and employee monitoring.
- Debugged and refactored core features to resolve system errors, optimize code efficiency, and ensure application stability during the development phase.
- Collaborated with senior developers in an Agile environment, gaining hands-on industry experience in full-stack development, system maintenance, and IT best practices.

ACADEMIC PROJECTS

Department of Education – Schools Division Office of San Carlos City | January 2025 – February 2026

Full-Stack Developer – "AI-Powered Customer Satisfaction Measurement & Data Analytics System"

- Architected and deployed a full-stack web application using Laravel and MySQL to fully digitize customer satisfaction monitoring and feedback processes for the DepEd Schools Division Office (SDO-SC).
- Achieved a 98.6% user acceptance rate during system testing, validating high usability, robust data security, and overall platform effectiveness.

EDUCATION

Pangasinan State University – San Carlos City Campus | 2022 – 2026

Bachelor of Science in Information Technology

- Major in Web and Mobile Technologies
